REMARKS

The figures of births and deaths of India shown in this statement for week ending the 17th November, 1956, relate to 159 towns with an estimated population of 23,781 thousands. The total number of towns is 318 and their population is 41,584 thousands. Thus 50% of the total number of towns representing 57% of the total population is covered in this statement. The number of births and deaths recorded in these towns were 17,172 and 6,567 representing birth and death rates of 37·5 and 14·4 per thousand of population respectively. Information about Andhra Pradesh, Bihar, Madhya Pradesh, Pondicherry Rajasthan and West Bengal could not be included.

No town recorded a high death rate of 50 or over per thousand of population. The following table gives the position by states.
